Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Textbook of Military Aeronautics One of the purposes of this book it to make available to our prospective American aviators the educational in formation regarding the manner in which aviators fight the enemy - information which the enemy gets whenever Allied aviators are brought down oral printed instructions are found on them, and by daily observations of what the Allied aviators do. The author has found by talking to Allied officers and from the score or so of periodicals of the European countries engaged in this war that all information about modus operandi and aeroplanes and devices becomes known to the enemy almost immediately, through the capture of aeroplanes and aviators and through observation of repetition of actions. Another purpose of this book is to supply to military authorities an illustrated pen picture of the history of the evolution of military aeronautics, its present status, and the direction of its development. The hundreds of letters received from naval officers regarding the value to them of the Textbook of Naval Aeronautics convinced the author of the need for a similar book about military aeronautics rather than for a book dealing with the mechanics of military aircraft and their equipment, an extensive subject that would fill a book as huge as this volume. The following excerpts of letters from the commanding officers of war-ships give the general sentiment expressed in the letters received about the Textbook of Naval Aeronautics. which are close to one thousand in number. Acknowledging the receipt of two copies of the text-book, one for himself and one for the ship s library, for the use of the crew, the commanding officer of a United...
