Reviews

Unquestionably, this is actually the very best work by any article writer. It usually does not price a lot of. Once you begin to read the book, it is extremely difficult to leave it before concluding.

APress. Paperback. Book Condition: new. BRAND NEW, Pro RFID in BizTalk Server 2009, Mark Simms, Mark Beckner, Ram Ventatesh, The market for Radio Frequency Identification (RFID) technology is expanding rapidly, constituting billions of dollars annually. As more organizations adopt RFID solutions and related equipment, the need to route, map, and execute workflows based on RFID data grows exponentially. Microsoft's solution to this demand is BizTalk RFID, an application built to distribute, track, analyze, and provide visibility into enterprise data collected using RFID technologies. To aid in the rapid understanding and adoption of BizTalk RFID, this book's authors have joined together to present Pro RFID in BizTalk Server 2009, the definitive resource for unlocking the potential of the application. With extensive code and configuration examples and multiple case studies illustrating how this application is being used in various industries, authors Ram Venkatesh, the lead developer of the BizTalk RFID platform, Mark Simms, a leading architect and developer of BizTalk RFID solutions, and Mark Beckner, a BizTalk Server and enterprise architecture specialist, ensure that you will gain the insight and master the tools necessary to be able to confidently and efficiently implement a BizTalk RFID solution. What you'll learn * Understand RFID BizTalk application design and architecture. * Build and develop an RFID BizTalk solution. * Explore in-depth analysis and examples for event and command processing. * Utilize and implement Mobile RFID solutions. * Instantiate workflows with the core BizTalk engine's adapters and orchestrations. * Validate and route data using the Business Rules Engine. * Integrate with MSMQ, WCF, web services, and external applications to ensure enterprise adoption. * Understand guidelines around testing, deploying, and managing RFID BizTalk solutions. * Store and access RFID-related metrics. * Learn how the technology is being applied across numerous industries through extensive real-world case studies. Who...
