Reviews

A brand new e book with an all new standpoint. it was actually written very properly and beneficial. I am just very easily will get a satisfaction of studying a composed publication.
(Esperanza Pollich)

PARALLEL PROBLEM SOLVING FROM NATURE - PPSN XI: 11TH INTERNATIONAL CONFERENCE, KRAKOW, POLAND, SEPTEMBER 11-15, 2010, PROCEEDINGS, PART I**DOWNLOAD**

Springer. Paperback. Book Condition: New. Paperback. 742 pages. Dimensions: 9.2in. x 6.1in. x 1.1in. We are very pleased to present to you this LNCS volume, the proceedings of the 11th International Conference on Parallel Problem Solving from Nature (PPSN 2010). PPSN is one of the most respected and highly regarded conference series in evolutionary computation, and indeed in natural computation as well. This biennial event was held in Dortmund in 1990, and then in Brussels (1992), Jerusalem (1994), Berlin (1996), Amsterdam (1998), Paris (2000), Granada (2002), Birmingham (2004), Reykjavik (2006) and again in Dortmund in 2008. PPSN 2010 received 232 submissions. After an extensive peer review process involving more than 180 reviewers, the program committee chairs went through all the review reports and ranked the papers according to the reviewers' comments. Each paper was evaluated by at least three reviewers. Additional reviewers from the appropriate branches of science were invoked to review into disciplinary papers. The top 128 papers were finally selected for inclusion in the proceedings and presentation at the conference. This represents an acceptance rate of 55, which guarantees that PPSN will continue to be one of the conferences of choice for bio-inspired computing and metaheuristics researchers all over the world who value the quality over the size of a conference. The papers included in the proceedings volumes cover a wide range of topics, from evolutionary computation to swarm intelligence, from bio-inspired computing to real-world applications. Machine learning and mathematical games supported by evolutionary algorithms as well as memetic, agent-oriented systems are also represented. They all are the latest and best in natural computation. The proceedings are composed of two volumes divided into nine thematic sections. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
